Aqua - St Jean

The modern and spacious Villa Aqua is a welcoming refuge for a couple on a romantic getaway. Its location close to the Bay of St Jean puts it in a quieter, more peaceful setting, but it is also close to the beach and restaurants in that area.

Inside the confines of the luxury rental property, Villa Aqua is a place for relaxed St. Barth living. The large windows offer lovely sea views. Inside, the decoration is intriguing without being overwhelming, and everything is very well maintained. The spaces are filled with natural materials, soft but vivid colors, and luminous natural light.

The vacation home is built over two levels. On the balcony you find the gracious lounge area, and a generous seating area, a long dining table in the center. Downstairs you will find a lounge and a well-equipped kitchen at the end, separated from the dining area by a bar counter.

On the upper level, the master bedroom has a large dressing room and ensuite bathroom.
