

# Big Sky 31

Region: Big Sky Bedrooms: 5 Sleeps: 12 Bathrooms: 3.5

This beautiful mountain lodge is perfect for the large family or group getaway for that special Big Sky vacation. In summer, the lodge can serve as a home base for trips into Yellowstone. In winter, this house is truly ski-in/ski-out as the White Otter Lift is just a few steps out the front door, and the Cascade Lift runs right over the house.

Offering 5 bedrooms and 3.5 baths, Twin Lodge is perfect for families. Three bedrooms upstairs house queen beds and TVs, while the fourth upstairs bedroom offers two sets of twin bunk beds for the kids. There is also a crib in the home to accommodate your junior explorer. The master bedroom downstairs has a king bed and a TV. A comfortable family room upstairs is an ideal place for entertaining, with a TV and Wii gaming system. The family will also love gathering in the private outdoor hot tub, which overlooks all the action on the chair lifts.

For your convenience, the home has a laundry room, a boot dryer, and a one car garage. This skier's paradise is waiting for your next great vacation!

Please be advised that this home does not have air conditioning.

Early season and late season ski access is condition-dependent and dictated by Big Sky Resort operations.
