The Pandawa Cliff Estate is set high above the ocean on Balis scenic Bukit Peninsula, making a superb wedding and event venue. Six-bedroomed Villa Marie, one of four luxury rental properties on the estate, offers a 17-metre pool, a centrally situated, family-friendly living pavilion and a large poolside barbecue bale, set amidst pretty ponds and tropical gardens with ocean views. The estates sports centre boasts tennis and squash courts, a well-equipped gym and spa, and a large team of staff are on hand to take care of every need.

One of three villas in the exclusive Pandawa Cliff Estate, Villa Marie is set back 100m from the cliff above Pandawa Beach on Balis southernmost tip. This peaceful, white sandy beach is a short drive away down a road that cuts dramatically through the cliff. There, you can swim, snorkel, hire a kayak or sip an ice cold Bintang at one of the simple local warungs. This is possibly the remotest part of Southern Bali – and yet Uluwatus revered cliff-top temple, Balis famed surf breaks, the fish restaurants of Jimbaran Bay, and even the airport are all within a half-hour drive.

Location

Peacefully and privately situated, at the end of a winding country lane on Bali's southernmost tip, The Pandawa Cliff Estate is a hidden paradise overlooking the Indian ocean from its enchanting cliff-top setting.

Apart from a handful of other luxury villas sprinkling the cliff top, and the beach huts and local cafes bordering the white sands of Pandawa Beach far below (named after the five warrior brothers of the Mahabharata epic, whose white stone statues are carved into niches along the road leading down to the beach), there is little development in this unspoiled corner of Bali. But despite it's tranquil, rural setting, The Pandawa Cliff Estate is less than 30 minutes' drive from Bali's international airport, and within easy reach of several glorious surf beaches, the sacred sea temple of Uluwatu, and the many restaurants and beach bars of Jimbaran and Nusa Dua.
