Location

Bendega Rato lies off a grassy lane among a scattering of other private villas and the luxuriant rice terraces that define the Balinese countryside. The sound of the waves can be heard from the villa's immaculate, though modestly sized garden and a walk westwards along the beach (good for surfing and walking but currents make it unsuited for swimming) will bring you to a sea temple and the glorious museum-like Hotel Tugu. Down the road from the villa are some village homes and small grocery shops selling the basics, but for more sophisticated pleasures, guests can avail themselves of the villa's car and driver and head into Seminyak.
