

📍 Pigeon Forge

# Pigeon Forge 4

🛏️ 2   🪑 3   👥 8

This secluded 2-bedroom, 2.5-bathroom cabin offers enough luxury living space to sleep eight guests, as well as featuring an upstairs loft area. Large windows and multiple outdoor spaces provide a great view of the Great Smoky Mountains from both the inside and out.

Upon arrival, you are greeted by a spacious living room with an elevated ceiling, hardwood floors, and a wood burning fireplace. A flat-screen TV provides entertainment, while a futon and sofa provide comfortable seating options.

Following the open-plan design of the property, you will find a fully-equipped kitchen with everything that you may need to prepare and serve your favorite meals throughout the day, including dishes, cookware and steel appliances.

Take in the gorgeous Smoky Mountain vistas from the oversized hot tub on the screened-in deck, or enjoy a game of poker or bumper pool at the games table. There is also another deck with ceiling fans for warmer months, as well as plenty of rocking chairs.

Outside, a charcoal grill awaits fun family barbecues, and the outdoor firepit is a great location to take in the views while roasting marshmallows.
