

Santorini 7 is a unique property located at the highest spot of Oia village in Perivolos area. Its amphitheatric position offers fantastic views over the cliff, the village, the beautiful sunset and the volcano, all at the same time. The location of the villa is very convenient as it is just 500 meters from Oia center. Outside the villa there is a parking area, bus stop, markets and restaurants. There is an external Jacuzzi mini pool for 6 persons available under a shaded veranda in the main court yard with fabulous view to the caldera and the village of Oia. This lovely villa in Oia consists of three levels (main, upper and lower), which can be united in one villa for a big family/group of friends or two separated houses, the White Residence and the White Loft. It consists of a luxury master bedroom with double bed, en suite vanity marble bathroom curved into the rock with Jacuzzi bathtub and photocell power taps, a living room with built sofas and an antique wooden table, a separate dining area with an antique massive wooden table and sitting corner and a fully equipped kitchen with all modern appliances. From the living area a few stairs take you up to a small sitting area with a sofa bed and window with fantastic sea views. On the lower level of the White Residence, a very particular apartment shows how people in Santorini exploited any available space and lived (and still do) in this amazing and unique cliff island. This lower level consists of a small living area, a kitchenette equipped with fridge, microwave oven, coffee maker and all kitchenware, a small WC with shower and a double bed nested in the window of the cave. The cave atmosphere of this lower level gives a special and romantic atmosphere. It is connected with interior stairs with the rest of the house or through a separate main entrance.
