Villa Ana

🛏 3 🍽 3 👥 6

Warm soft colors reflect the French and Mediterranean influences that make the comfortable and peaceful decor of Villa Ana so special. A mere five-minute drive from the tropical garden at the villa's entrance takes guests to Gustavia or Gouverneur Beach.

Two bedrooms of equal dimensions with lovely tiled baths share a second tropical garden that features an exotic Travelers tree as its centerpiece. A separate bungalow houses a third bedroom with a small living room and kitchenette. A single level, tiled terrace connecting the bedrooms, pool and living area provides covered and uncovered dining as well as places to sunbathe or relax in the shade. An additional tropical garden is located below the pool. The neighboring islands of Saba, Statia, St. Kitts and Nevis can be clearly seen from the terrace and pool area where dazzling sunsets paint the western skies throughout the winter.
