

Vitet

# Villa Angel

6 6 12

As with its namesake, there is an ethereal quality to Villa Angel, a contemporary and stylish retreat in Vitet. Cooling Caribbean breezes waft through the luxury rental property, and everything is dappled in warm sunlight. The refined, well-crafted details throughout the smartly designed home form a sublime backdrop for the large collection of original works by famous artists that hangs throughout. Views over the Grand Fond area complete the picture.

With its generous size and equitable layout, Villa Angel is well suited to extended families or groups of friends traveling together - and whatever the reason. The concierge can personalize unforgettable experiences. Above all, there is an abundant feeling of space, both indoors and in the outdoor areas. Even the swimming pool is large, and it comes heated and with a kids' basin.

Most of Villa Angel spreads out across one level, with the four bedrooms around the ample living area. This space is cooled by the ocean breezes and several ceiling fans. On one side there is a large sectional sofa in front of the US-satellite-equipped TV, and on the other is a professional-grade kitchen with a breakfast bar (plus additional kitchen space in the back). In the middle, there is a dining table that seats 12 people.

Each of the four bedrooms on this level has a European king-size bed, US satellite TV, and ensuite bathroom with an indoor and an outdoor shower. The master bedroom occupies its own bungalow at the end of the swimming pool and can be accessed from the terrace. It has all the amenities of the others, as well as a small office. The sixth bedroom is in a separate bungalow and may be best suited to staff or teenagers. It has a kitchenette with a refrigerator, a European king-size bed that can be made up as twins, a private garden terrace, and an ensuite bathroom with a shower.

The outdoor area has ample seating in the sun and in the shade.
