# Villa Beach House

🛏 2 🍽 2 👥 4

Decorated in a clean, simple style employing shades of white and natural wood accents, Villa Beach House is a dreamlike idyll right on the remote and peaceful western end of Flamands Beach. The living area and kitchen open directly onto the teak deck, where a shelter dining table seats ten for seaside lunches or dinners under the stars. In addition, the terrace offers chaise lounges for sunning, a smaller dining table nearer the sand (perfect for morning coffee), and a hammock. From the edge of the terrace, you are just a few steps from the pure, white sand of one of the most desirable beaches on the island.

A short walk down the beach brings you to some of the island's top restaurants. Please note that this is a non-smoking villa.
