

📍 Petit Cul-de-Sac

Villa Cairn

🛏️ 4 🚿 4 👤 8

A deep connection to nature runs through the newly built, contemporarily designed Villa Cairn. The location, in the gated community of Domaine des Levant, gives it sublime views over both the green countryside and the azure waters of the Grand Cul de Sac lagoon, as well as unforgettable sunset. This luxury rental property is also tied to nature with the owners' impressive collection of Aboriginal art, much of it inspired by the plants and animals around us.

The feel of the four-bedroom Villa Cairn is very modern, and everything is comfortably appointed. The spacious, high-ceilinged main room has a convivial living area on one side and indoor dining room, with seating for eight guests, and open kitchen on the other. This entire living area opens onto a wide, covered, bi-level terrace with an outdoor dining and lounging area, as well as the swimming pool.

Villa Cairn is well suited for adult families or groups of friends traveling together. Each of the air-conditioned bedrooms has a king-size bed and an ensuite bathroom. Two of the bedrooms are located on either side of the main gathering area, while the third is accessed from the terrace and the fourth is in its own private bungalow.

Guests at Villa Cairn also enjoy direct (but steep) access to the beach at Petit Cul de Sac.
