

Vitet

Villa Casa Azul

4 4 8

Located on the Vitet hillside high above the turquoise waters of Grand Cul de Sac, Casa Azul offers its guests the peace and tranquility of a very private location while also providing a stunning panoramic view out over the eastern end of the island and the Atlantic Ocean beyond. On the villa's main floor you will find the integrated kitchen, dining and living areas, furnished in dark wood and white fabric, for a clean, contemporary look. Wide sliding glass doors ensure an ocean view from practically every vantage point in the room and also allow easy access to the teak terrace, plentiful and comfortable outdoor seating, and the pool. On this level you will also find Villa Casa Azul's first master bedroom, with an ensuite bath and a view.

Villa Casa Azul's upper level offers two adjacent bedrooms, one designed as a second master bedroom with a king bed, and the second as a children's room with three twin beds. Both rooms have sea views and private ensuite baths. The fourth bedroom has recently been added and is situated on a level below the pool area. Villa Casa Azul is especially appropriate for families with a strong preference for a smoke-free environment, as the owners respectfully require that smoking be strictly limited to the terrace, and that no candles be used anywhere on the property. The villa was recently upgraded with optical fiber pro Internet.
