Villa Indyana

🛏 3 🚿 3 👥 6

Clean-lined and artfully designed in a palette of cool, soothing slate and charcoal grays, white and a few carefully deployed pops of color, the newly built Villa Indyana overlooks a landscape of green rolling hills, palms, orange flamboyant trees and open blue skies. The luxury rental home is well suited to small families who want to live simply but comfortably.

In typical St. Barth style, Villa Indyana is centered on a central great room in which a living area merges with an outdoor dining area on one side and an open kitchen on the other, separated from the seating areas by a kitchen island with a stove on one side and barstools on the other so conversation can continue to flow as dinner or breakfast is being made. The kitchen is very well equipped and has a skylight that brings more of that island sunlight into the living spaces. In addition to a dining table that comfortably seats eight, the outdoor area includes a sun-soaked conversation area with couches and a low coffee table, sunbeds that can be shaded or sunny depending on their location and the time of day, and an enticing infinity pool lined in dark slate gray.

Two bedrooms lie on opposite sides of the living area. Both have king beds, direct access to the terrace through sliding glass doors, and large ensuite bathrooms. One of them also has a separate dressing area, and the other has double vanities and a skylight. An independent studio has also recently been built which offers two twin beds.

Please note that the villa offers housekeeping every day including Sundays and holidays.
