All whitewashed walls, blue-striped cushions, and ombre sea-hued curtains, Villa Javacanou is a place where the living is easy. To begin, there's the location, right on Marigot Beach with access to the sand just a few steps away. The contemporary design is enhanced with all the modern comforts one might expect. Works from renowned local artist Kay Quattrocchi enhance the decor.

The luxury rental property is well suited for a group of friends or a family with adult children to share. The three bedrooms on the second level are all equal in size and have stunning sea views. All have king-size beds, ensuite bathrooms, and Apple and satellite TV.

The heart of the vacation home is an open main room located downstairs, with a large gourmet kitchen with an island that can be used for casual breakfasts or pre-dinner cocktails, a dining area, and a separate sitting area. An additional media room can be closed off, the better to enjoy the entertainment of your choice.

Outside, Villa Javacanou has plentiful seating on the terrace. You can lounge on a swing bed or on a daybed under a gazebo. The long infinity pool stretches in front of cushioned sunbeds. The terrace also provides access to a small private beach area with a daybed, lounge chairs, and access to the sea. A canoe, stand-up paddle board, and snorkeling gear are included with the villa.
