Villa La Belle Creole

🛏 7 🚿 7 👥 14

The white wood cladding on the outside of Villa La Belle Creole is your first hint of the charm and grace that you will find inside the luxury rental property. The newly renovated and partially rebuilt vacation home practically oozes with St. Barth-style warmth and welcome.

Indoors, Villa La Belle Creole combines soft, soothing collection of traditional West Indies furniture, decorations, and colorful fabrics with contemporary amenities that make it an easy place in which to live. All of the bedrooms are very similar in size and appointments, making the house ideal for sharing with family or friends.

The layout spans three levels. The main level contains the living area, kitchen, and one of the bedrooms, which has a king-size bed and an ensuite bathroom. This level also has the main parking area, a back patio with a barbecue corner, and a traditional Caribbean-style covered veranda in front of the living area and kitchen, which protects guests from the elements and allows them to enjoy any part of the day outdoors and to share alfresco meals.

One level above this, you will find two more bedrooms with king beds and ensuite bathrooms. One of these bedrooms is adjacent to a small bedroom with a single bed, which would be well suited for a child. (A crib is also available in the house.) The regular room and small room share a common bathroom.

The remaining four bedrooms are on the lower level, along with the swimming pool. Three of them are situated next to one another and identical, with king beds and ensuite bathrooms. The fourth is in its own separate bungalow, giving it more privacy.

The villa is well located in the hills of St. Jean. It's just a few minutes' drive from Nikki Beach and all the other amenities in the area.
