Villa On the Rock

🛏 1 🚿 1 👥 2

The one-bedroom luxury rental property is spacious and romantic, making it ideal for couples on their honeymoon or another romantic getaway in St. Barth. Of course, the concierge can organize all kinds of memorable experiences, from private wine tastings to couples massages. The design is minimalist but comfortable, making for an easy-living ambience. The walls are white, the fabrics are neutral, and the windows are large. There are sea views from every corner. Outside, a long, heated pool takes center stage on a large sundeck with different areas for sitting, lounging, and alfresco dining - perhaps something seared on the outdoor grill. The bedroom, which has a king-size bed, is on the main level and opens up to the pool and sundeck. It also has an outdoor shower. The living area and kitchen are upstairs. The villa is fully air-conditioned and has televisions in the living room and bedroom with Dish Network.
