All of our service providers receive a thorough background check and are verified with Homeowners.

The Community

This gated, beachfront community is located directly between Cabo and the SJD airport, commonly called the Tourist Corridor. Being one of the smallest and most exclusive communities in Cabo makes this development a highly coveted retreat for people who want to get away from crowds while on vacation. It is located in between two luxury resorts. With close proximity to golf, tennis, spas, shopping, and more, Villa Serena's community provides an outstanding oasis for a beachfront luxury vacation.
