Villa Star

Please note: This property requires a three-week minimum stay in the month of August.

The newly built Villa Star is a shining example of modern design and comfortable living in high St. Barth style. The luxury rental property has a soothing palette of white and natural tones, a lovely background for an eclectic collection of decorative objects and sophisticated details. The neutral vibe makes it a calm setting for easy island living.

Everywhere you turn, there are views of the sapphire-blue Bay of Lorient. Since the villa is built into the rock of the hillside in Camaruche, it is positioned so that in some cases, it almost feels as if you are on a boat, with the water right outside your window. The views and especially the sunsets are captivating.

Villa Star is a place for sun worshippers. The beach is just a short drive away. Within the villa's grounds, the infinity pool and the large terrace that surrounds it are blessed with nearly all-day sun. The area near the pool is set up with chaise lounges, so you can get a beach vibe without getting in the car.

Indoors, the vacation home is centered on a living room that can be completely air-conditioned or opened up to allow the Caribbean breezes to waft through. The living area, with its plush, sand-color couches is in the middle, with the dining table on one side and the kitchen on the other, next to the entrance of the house.

Occupying its own bungalow, the master bedroom is right outside the living room and in front of the pool. This room has a king-size bed, floor-to-ceiling windows with terrific sea views, and a large ensuite bathroom with indoor and outdoor showers. The two additional bedrooms are on the lower level of the main building, reached via a hallway near the parking area. Each has a king-size bed, large windows, and an ensuite bathroom with an indoor shower.
