

📍 Fuerteventura

Villa Susi

🛏 4 🍽 4 👥 8

Head inside via glass sliding doors into a spacious lounge with centrepiece skylight, allowing lots of light in. This area is furnished with sofas, a TV and dining table and chairs. There are four, generous sized bedrooms, two of which are double, two are twin and there are also four bathrooms to share. The resort centre of Caleta de Fuste is less than ten minutes away by car, offering a wide choice of bars and restaurants. Golfers love the area and the immaculate eighteen-hole golf course once hosted the Spanish Open tournament.

Location

Commonly referred to as Costa Caleta, the family-friendly resort of Caleta de Fuste is perched on Fuerteventuras east coastline and has been built around an 18th Century fortified tower and pleasure harbour. The resort boasts a pristine beach with calm, shallow waters ideal for paddling and swimming, as well as a good variety of restaurants, shops and bars. Some of our villas here are on the doorstep of two stunning golf courses, including the Championship Fuerteventura golf club.

*The swimming pool is heated by a solar pump and is included in the villa rental cost. Electric Pool heating is available and can be added as an extra, on a request basis. We would like to advise that during periods of overcast weather, the swimming pool might not be heated as much if you do not take the Electric Pool heating option.
