Villa Teddy

2 2 4

High above the lagoon of Grand Cul de Sac, looking out over a vast expanse of the blue Atlantic, Villa Teddy welcomes its guests into a world of thoughtful design and attention to detail. Decorated in dark wood and white fabric, frosted glass and natural stone tiles, Villa Teddy creates a refined ambiance without sacrificing comfort or convenience.

The main living area opens directly onto the terrace, pool, and magnificent view beyond. With an HDTV and surround sound system, and comfortable sofas upholstered in white cotton fabric, the living room offers a shady retreat from the afternoon sun. The open kitchen is adjacent to the living area, separated by a convenient breakfast bar and making meal preparation pleasantly social. A sheltered outdoor dining table for six becomes the perfect spot for morning croissants and coffee or a candlelit dinner under the stars. The terrace and pool enjoy plentiful sunlight throughout the day, with relaxing daybeds for tanning.

Villa Teddy's two bedrooms are located to either side of the main living area, both opening onto the terrace and ocean view. The east bedroom provides a queen bed, flat screen television with DVD, and an exceptionally well-appointed ensuite bathroom, with dual vanities and a luxurious soaking tub. The west bedroom also offers a queen bed and an ensuite bath with a single vanity and rain-head shower.
