Villa Wastra is a newly built, modern villa ideally located on the hillside of Gustavia, with a splendid view of the harbor and St Maarten. This villa offers the convenience of being downtown, but is still in a very private area. This villa is perfect for couples, families or friends traveling together.

The living room, well-equipped kitchen and dining room share the same room and open onto the terrace, pool and view. Located in each side of the living room, the two bedrooms with king beds and ensuite bathrooms also connect directly to the terrace and pool. Both are spacious and decorated in a contemporary style with modern amenities.
